FACTBOOK 2008-2009

The Office of Institutional Research

PREFACE

The *Mississippi State University FactBook 2008-2009* is a compilation of university facts and figures provided by the Office of Institutional Research and various university organizations and departments. The Office of Institutional Research sincerely appreciates the efforts of those who have contributed their time and shared their knowledge in order to insure an informative and professional document is presented.

It is our objective to provide a worthwhile and professional fact book. *FactBook 2008-2009* is intended to be useful to its readers and used as an archival resource for a wide variety of information needs. Information contained in this book is a collection of university data received after August 1, 2008 and before August 1, 2009. An electronic version of this fact book, as well as past versions, can be viewed at: www.ir.msstate.edu/factbook.htm. We welcome your thoughts and suggestions regarding *FactBook 2008-2009* and are open to your ideas for additional data for future editions.

INTRODUCTION

MISSISSIPPI STATE UNIVERSITY

Established in 1878 and located in Starkville, Mississippi State is a Land-Grant university featuring the state's only Veterinary Medicine School and Architecture program. The university is a Carnegie Doctoral Research Extensive institution. MSU is classified as a Four-Year 1 SREB institution offering approximately 174 programs leading to baccalaureate, master's and specialist, first-professional and doctorate degrees. For more information, please visit www.msstate.edu.

VISION

The vision of Mississippi State University is to be the most respected land-grant institution in the region.

MISSION

The mission of Mississippi State University is to educate the workforce and leaders of the future, produce robust research for our state and nation, and provide expert services to our citizens, communities and businesses.

OPERATING PRINCIPLES

Enhancing its historic strengths in agriculture, natural resources, science, and engineering, Mississippi State entered the twenty-first century with additional strengths in a comprehensive range of graduate and undergraduate programs. These include architecture, the arts, business, education, the humanities, the social and behavioral sciences, and veterinary medicine. The Meridian Campus focuses on meeting the needs of place-bound students and working adults through upper division and graduate programs in education, business, liberal arts, and social work.

The university's educational programs emphasize the exploration of ideas and the discovery, application, and dissemination of knowledge. The university embraces its role as a major contributor to the economic development of the state through targeted research and the transfer of ideas to the marketplace, aided by faculty-industry relationships and by interdisciplinary initiatives. Building on its land-grant tradition, MSU extends its resources and expertise throughout the entire state for the benefit of Mississippi's citizens. Through integration of its programs in learning, research, and service, through traditional scholarship, through statewide extension and outreach, and through engagement with business, industry, government, communities and organizations, the university is committed to maintaining its tradition as the People's University.

STATEWIDE MISSION

Mississippi State University will serve the State of Mississippi and beyond through its broad range of instruction, research, and outreach functions. The university maintains four strategically located research and extension centers around the state and has staff in every county of Mississippi. The institution regularly enrolls students from each of the state's eighty-two counties and is actively engaged with business and industry, agriculture and natural resources, schools, communities and organizations in every part of the state.

OUTREACH AND SERVICE

MSU will continue to build on its land-grant tradition and statewide presence through partnerships with business and industry and the agricultural sector, with communities and organizations, and with others. The university will strengthen its numerous partnerships with K-12 schools and community colleges, continue to play a major role in preparing the state's school teachers and other education professionals, reach out to the youth of the state through 4-H and other programs targeted toward youth development, and serve non-traditional students through non-traditional means.

MSU EXTENSION SERVICE/MAFES

MSU Extension Service and Mississippi Agricultural and Forestry Experiment Station (MAFES)

The Mississippi Agricultural and Forestry Experiment Station (MAFES) was established through passage of the Hatch Act of 1887 and subsequent state legislation enacted in 1888 for the expressed purpose of conducting scientific research in agriculture, forestry and related sciences. Thus, funds supporting this research program derive from both federal and state appropriations with the federal funds administered through the USDA, Cooperative State Research Service (CSRS).

Most prominent methods used to deliver Extension educational programs:

- Short Courses, Conferences, and Training Sessions
- Demonstrations and Tours
- Distance Learning Strategies
- Online Information Access
- Traditional Media

Extension's educational programs can be grouped into four categories:

- certification and legislatively mandated programs;
- workforce development programs;
- business and industry development programs;
- life skills and personal growth programs.

As part of the national Cooperative Extension System, in partnership with the U.S. Department of Agriculture, the Mississippi State University Extension Service delivers non-formal, lifelong education to Mississippians in every county of the state. MSU Extension is a local needs-based network of educational professionals which includes 92 state specialists and 269 county professionals. Extension delivers educational programs through short courses, conferences, demonstrations, and personal contacts. Faculty use sophisticated distance learning strategies, the World Wide Web and Internet, as well as traditional educational curricula and mass media to reach diverse audiences. Extension's educational programs are wide ranging, meeting workers' needs for certification and on the job skills development, and helping businesses, industries, and local governments become more efficient and effective.

SOUTHERN UNIVERSITY GROUP

Mission of the Southern University Group

The Southern University Group (SUG) is organized to provide a forum for the exchange of information on university management and planning, to exchange comparative data, and to exchange other ideas or materials that are of potential interest to the administration of the universities that belong. The membership of SUG is comprised of major research and land-grant universities in the region of the Southern Regional Education Board. The organization meets twice a year: once in conjunction with the Association for Institutional Research and once with the Southern Association for Institutional Research. Throughout the year individual members communicate with each other to exchange information and to answer questions on topics of interest.
